

Professional Summary

An enthusiastic Frontend Engineer with over 3 years of hands-on experience in developing, designing, and maintaining scalable, user-centric web applications.

Technical Skills

Strong: HTML5, CSS3, JavaScript (ES6+), TypeScript, Angular, Responsive Design (Flexbox, Grid, Media Queries), CSS Preprocessors (SASS/SCSS), RESTful APIs (Fetch, Axios), Version Control (Git, GitHub), Build Tools (Babel, npm/yarn)

Experienced: React, State Management (NgRx), JavaScript Testing (Jasmine/Karma, Jest), Web Performance Optimization (Lazy Loading, Code Splitting, Minification), API Testing (Postman), Frontend Testing (Jasmine/Karma, Protractor), Cross-browser Compatibility, CI/CD Pipelines (GitHub Actions, Jenkins), GraphQL, Webpack

Experience

Mida

September 2023 - Present

Frontend Engineer

Lagos, Nigeria

- Built a scalable SaaS application for loan collection and recovery, enabling efficient loan management and improving recovery rates.
- Developed an internal application for the organization, streamlining internal processes and boosting operational efficiency.
- Created intuitive, cross-device user interfaces, significantly improving user engagement and optimizing experiences across mobile, tablet, and desktop platforms.
- Addressed and resolved performance bottlenecks in client-side scripting and layout rendering, leading to improved application responsiveness and faster load times.
- Seamlessly integrated RESTful APIs in collaboration with backend teams, ensuring smooth communication between the frontend and backend, contributing to the overall reliability of the system.

DemoHub Global

March 2023 - October 2023

Frontend Engineer

Lagos, Nigeria

- Collaborated closely with the development team to troubleshoot and debug frontend issues, ensuring timely resolution and smooth project execution.
- Conducted comprehensive code reviews, providing constructive feedback that upheld code quality and adherence to best practices, leading to improved maintainability and performance of the codebase.
- Implemented effective debugging strategies, identifying and resolving issues that enhanced overall project stability and user experience.

Seamfix
Frontend Developer
Lagos, Nigeria

June 2021 - December 2022

- Contributed to the SmartMDM product, a flexible mobile device management solution that addresses data insecurity, unauthorized device usage, and poor data management, improving organizational control and security.
- Maintained and optimized legacy applications, proposing technical solutions for new functional designs and recommending performance improvements, resulting in enhanced application efficiency and reliability.
- Applied engineering best practices and continuous improvement techniques aligned with Agile-Scrum methodology, ensuring high-quality deliverables and timely project completion.
- Developed responsive and interactive frontend components using HTML, CSS, and JavaScript, delivering seamless user experiences across diverse devices and browsers.
- Collaborated with a multidisciplinary team of developers, designers, and stakeholders to create visually appealing and user-friendly websites and applications, enhancing user satisfaction and engagement.

Education

Adyghe State University **2021**
BSc. Software Engineering and Information System Management
Russia

Certification

Angular Core Deep Dive **2022**
Udemy (Angular University)

Modern TypeScript Backend Development **2022**
Udemy (Ariel Weinberger)

Web Development Bootcamp (2021) **2021**
Udemy (Colt Steele)
